

When you ask for the “morning- after” pill, do you know what you’re asking for?

How YOUR life began...

Human ovum (egg) is released from ovary and meets sperm

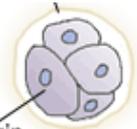

Human life begins here at conception (sperm fuses with ovum)

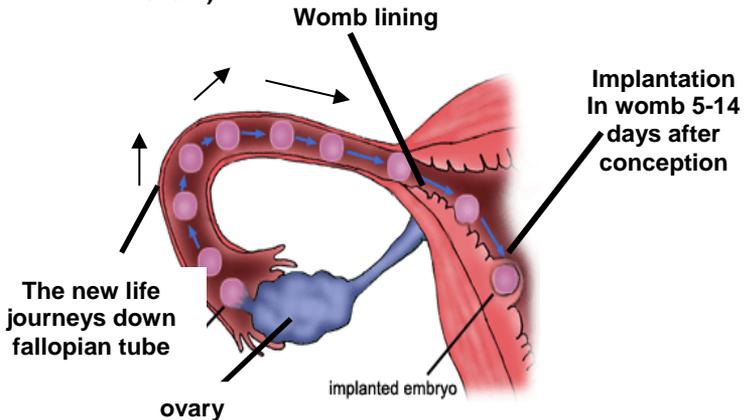

Newly conceived human life

Human person at 96 hours of age

cells begin to divide

YOU were once a pre-Implanted Human Embryo

Read on

How does the “morning-after” pill kill?

One effect is to change the womb's inner lining so that the newly-conceived human life is prevented from attaching itself to the womb wall. Under this chemical abortive action, the new life cannot implant in his/her mother's womb and so dies.

This is the principal way the “morning after” pill works (a,b,)

- a) cf The Morning After Pill, Uncovering the Truth. Dr John R Ling, Christian Institute 2007
- b) cf The Morning After Pill Dr Philip Howard, Triple Helix Autumn 2002 pp8-9

The “morning-after” pill IS abortifacient. It kills human life.

Don't be deceived – these are the facts.

It will kill human embryos created at conception (fertilisation) and before they are implanted in their mother's womb 5-14 days later.

Remember...YOU were once a pre-implanted embryo!

Pre-implantation is one stage of an entire unbroken series of life stages of the human person ~ conception to natural death.

“Human life is sacred and inviolable at every stage and in every situation : it is an indivisible good”

(Pope John Paul II Evangelium Vitae n87)

“Whoever attacks human life in some way attacks God Himself”

(Pope John Paul II Evangelium Vitae n9)

Many people have used the “morning-after” pill without being fully aware of these facts. Perhaps you know someone who has. Always remember there is hope: “...if we confess our sins He is faithful and just to forgive us and to cleanse us from every wrong” **(1 John 1:9)**
